## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4 and 14, drawn to vaccines comprising polypeptides and an isolated polypeptide.

Group II, claim(s) 5-8, 15 and 16, drawn to expression vectors, recombinant microorganisms and host cells comprising an isolated nucleic acid sequence of SEQ ID NO: 1 OR 3 or fragments thereof, the isolated polynucleotides and recombinant methods of producing a polypeptide.

Group III, claim(s) 9, 10 and 13, drawn to an antibody and methods of diagnosing using said antibody and compositions comprising said antibody.

Group IV, claim(s) 11, drawn to a use of a polypeptide. Note: "use" claims are improper because they are drawn to non-statutory subject matter. It is unclear what is being claimed so the claim was placed in its own group.

Group V, claim(s) 12, drawn to a use of a polynucleotide. Note: "use" claims are improper because they are drawn to non-statutory subject matter. It is unclear what is being claimed so the claim was placed in its own group.

2. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Groups I-V contain special technical features which are biologically, chemically and structurally different from each other and therefore they do not relate to a single inventive concept. The special technical feature of Group I is a

polypeptide. The special technical feature of Group II is a nucleic acid. The special technical feature of Group III is antibody. Groups IV and V contain non-statutory subject matter and it is unclear what invention they are claiming. The claims of Groups IV and V may be rejoined with one of the Groups once clarification is made.

3. Correspondence regarding this application should be directed to Group Art Unit 1645. Papers related to this application may be submitted to Group 1600 by facsimile transmission. Papers should be faxed to Group 1600 via the PTO Fax Center located in Remsen. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989). The Group 1645 Fax number is (703) 872-9306 which is able to receive transmissions 24 hours/day, 7 days/week.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer E. Graser whose telephone number is (571) 272-0858. The examiner can normally be reached on Monday-Friday from 7:00 AM-4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynette Smith, can be reached on (571) 272-0864.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (571) 272-0500.
